

**STOP MINING TIBET**

[www.stopminingtibet.org](http://www.stopminingtibet.org)

**Dear Mr. Xin Song, CEO**

I join tens of thousands of people worldwide who oppose China Gold International Resources Corp. Ltd's mining operations in Gyama Township (Chinese: Jiama), near Lhasa, the capital of Chinese-occupied Tibet.

In June 2009, armed troops violently suppressed local Tibetans who were petitioning Chinese authorities to stop China Gold's mining operations that are poisoning local water sources and destroying valuable farmland.

In spite of China's iron-fisted rule, Tibetans across Tibet are risking arrest, torture, imprisonment and even death to stop the exploitation of their natural resources. Until the Tibetan people once again control their own land, no Canadian or other foreign company has any business profiting from Tibet's resources.

**I call on you to immediately cease all operations in Tibet.**
